FEARED REPETITION OF KRAUS TRAGEDY

Residents of Larimore Station Excited by Shooting at Residence of Mrs. Mary Vogelsang.

HUSBAND ATTEMPTED SUICIDE.

Refused to Admit Intention of Slaying His Family, but Said He Would Have Ended His Own Life.

With the wholesale murder and suicide committed by Albert Kraus near Bellefontaine about ten days ago fresh in their minds, the citizens of Larimore Station, in St. Louis County, were intensely excited Friday night when several shots from a revolver were heard and the report that Herman Vogelsang was killing his family was spread.

To the quick action of John D. Holmes, who lives in Larimore Station, is probably due the credit for preventing at least a partial repetition of the Kraus tragedy.

Vogelsang and his wife, Mary, have been divorced since January, she having obtained the decree on the ground that her husband had threatened to kill her because their last child was a girl instead of a boy.

Outside the door of the Larimore Station, which was the scene of the Kraus tragedy, a crowd of people gathered Friday night.

When the door was opened, a man was seen to enter, and a crowd of people gathered outside. The man was seen to enter, and a crowd of people gathered outside.

Women Fear La Grippe and Catarrh—Pe-ru-na a Reliable Protection.

WITHOUT raising the discussion as to whether or not the grippe is produced by a specific microbe or not, at least it is a fact that it is a very contagious disease, and while it stimulates, it also exhausts the system.

It leaves a person haggard, weak, salivary, frayed-out, mucous membranes all congested, appetite, chameleon, digestive, capricious, and just about empties life of all meaning or desirability.

There is no remedy in the world that meets the conditions produced by la grippe better than the remedy, Pe-ru-na. Pe-ru-na strengthens as it renovates, soothes while it stimulates, heals as it expurgates.

Pe-ru-na is not a purgative, or cathartic or sedative, or stimulant, nor a vegetable or mineral poison.

This Pe-ru-na will do. A great many remedies have been suggested for this condition from time to time, but Pe-ru-na appears to be the only remedy that has any substantial value in these cases.

It has stood the test of forty years' experience and still occupies a unique position of being the leading (if not the only) specific remedy for the after-effects of la grippe.

At the appearance of the first symptoms of grippe people should stay indoors and take Pe-ru-na in small doses (teaspoonful every hour) until the system is disengaged. This will prevent a long, disastrous sickness and perhaps fatal results.

Pe-ru-na Reaches the Source of Catarrhal Diseases—Unhealthy Mucous Membranes.

It reaches the source of all diseases of the mucous membranes by its action on the vaso-motor system of nerves.

Every person who has had la grippe during the last year should take a course of Pe-ru-na. No one need expect perfect recovery unless they do so. The grip has produced catarrhal inflammation of the whole mucous membrane, and good health is impossible until these are restored to a normal condition.

Pe-ru-na will do. A great many remedies have been suggested for this condition from time to time, but Pe-ru-na appears to be the only remedy that has any substantial value in these cases.

MRS. THEOPHILE SCHMITT, OF CHICAGO.
CURED OF LA GRIPPE BY PE-RU-NA.

Pe-ru-na Not Only Cures the Grip (Epidemic Catarrh) But It Leaves the System in a Healthy Condition.

Mrs. Theophile Schmitt, wife of the ex-Secretary of the German consulate, writes the following letter to Dr. Hartman from 3417 Wabash Ave., Chicago, Ill.:

"I suffered this winter with a severe attack of la grippe, and having repeatedly heard of the value of Pe-ru-na in such cases I thought I would try it. I used it faithfully and began to feel a change for the better the second day, and in the course of a week I was very much improved. After using three bottles I not only found that the grippe had disappeared, but my general health was much better. I am satisfied that Pe-ru-na is a wonderful family remedy and gladly endorse it."

Mrs. Theophile Schmitt.

Omaha, Neb., January 23, 1900.
The Pe-ru-na Medicine Co., Columbus, Ohio.

Gentlemen: "I am 68 years old, am hale and hearty, and Pe-ru-na has helped me attain it. Two years ago I had la grippe—my life was despaired of. Pe-ru-na saved me."

Hon. James R. Gill is one of the oldest and most esteemed men of Omaha, Neb., coming to that city in its early days, when it was a frontier town. He has done much to make it what it is, serving on public boards a number of times.

COLONEL W. P. WOOD
DIES IN WASHINGTON.

Veteran of the Mexican and Civil Wars—Famous in Many Historical Incidents.

The Republic Bureau, 16th St. and Pennsylvania Ave., Washington, March 21.—Colonel William P. Wood, a veteran of the Mexican and Civil wars, died today while an inmate of the Soldiers' Home in this city, at the age of 83.

He was for many years a member of the National Capital Police, and was the first Chief of the Police Service and served in John Brown's raid at Harper's Ferry, the capture of the noted counterfeiter and the disclosure of the notorious Credit Mobilier case.

When the Mexican War broke out he enlisted in the Mounted Infantry and General Sam H. Walker, the noted Texas Ranger, whose command soon became the Third Regular Cavalry, in which Wood was a sergeant.

Wood drilled men to take part in one of John Brown's raids at Harper's Ferry, and would have had charge of the enterprise, but objected to crossing State lines under arms.

MUSIC IN A NUTSHELL

The difficult feature in the study of music is harmony. Teachers find it hard to impart a knowledge of harmony to pupils and the latter experience trouble in obtaining it. These conditions, however, will exist no longer, for the **SOHMER HARMONY CHART** recently invented, is the key to the situation. It explains all and is so simple and complete that even the most backward can understand harmony almost at a glance. It is equally valuable to vocal and instrumental musicians.

WOMAN WHO WAS
SCALPED WILL LIVE.
Her Skull Laid Bare, but She Walks to Ambulance and Tells Doctors About the Accident.

REPUBLIC SPECIAL.
Salem, Mass., March 21.—Mrs. Clauda Trudeau, who is employed in Naumkeag Mill No. 2, had her scalp completely torn from her head and still lives. According to the doctors her life will be saved by the skin-grafting process.

It was about noon when Mrs. Trudeau left the frame machine where she was working to adjust a bobbin on a larger machine near the main shafting. While reaching over, her hair became tangled in the revolving bolts of a small flywheel connected with the main shafting, lifting her from her feet.

No one was near when she made her first cry for help. Her assistant came to the machine, but when assistance came it was too late. Several of the employees rushed to her aid, but when they reached her, Mrs. Trudeau was lying face-conscious upon the floor, with her scalp torn from her head and with the hair tightly wrapped in the revolving wheel.

When Mrs. Trudeau was picked up she instantly regained her senses and walked to the ambulance, which took her to the Salem Hospital, where the surgeons in charge are of the opinion that her life can be saved by skin grafting.

A peculiar feature of the accident to which Mrs. Trudeau was subjected, was that she was not killed.
